Annotation for the interantional office of Università of Campania

The MOU (agreement) signed between University of Campania and UC covers exchange of staff and research students only, so the University of Campania students would not enrol in courses at UC. Setting up a course work exchange is one option for students wanting to undertake courses here. However, this would require a more detailed agreement at UC end. The UC Student Exchange programme is for course work only. Course work exchange is for Undergraduate or taught Masters (but not a research Masters). If Campania requires their students to enrol in courses in Semester 1 or 2, they could potentially come as Study Abroad students and they would need to pay tuition fees for their studies there. Details on the programme is available on the Study Abroad website (https://www.canterbury.ac.nz/study/study-abroad-and-exchange/study-abroad/).
